Introduction

Grant Patterson
Engagement Lead

T 0121 232 5296
E grant.b.patterson@uk.gt.com

This paper provides the Audit, Risk and Assurance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Nicola Coombe
Engagement Manager

T 0121 232 5206

Members of the Audit, Risk and Assurance Committee (ARAC) can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website www.grant-thornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at March 2018

Financial Statements Audit

We have started planning for the 2017/18 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Combined Authority's 2017/18 financial statements.

We conducted our interim audit in January and February 2018. Our interim fieldwork visit includes:

- Updated review of the Authority's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports
- Early work on emerging accounting issues
- Early substantive testing

The findings from our interim audit are summarised at page 6 to 8.

The statutory deadline for the issue of the 2017/18 opinion is brought forward by two months to 31 July 2018. We have discussed and agreed our plan and timetable with officers to ensure that this deadline is met.

The final accounts audit is due to begin on the 8 May 2018. We currently plan to report our findings for 2018 in our Audit Findings Report to the ARAC meeting on 21 June 2018. There is a provisional later date, if necessary, which will enable us to achieve the earlier deadline of 31 July 2018.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

We made our initial risk assessment to determine our approach in December 2017 and reported this to you in our Audit Plan in January 2018. The key risk we identified was the evolution of the Combined Authority's governance arrangements

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the earlier deadline of 31 July 2018.

Other areas

Meetings

We met with Finance Officers in January and February as part of our interim audit and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We held a Chief Accountant's workshop, which members of your finance team attended, and which provided briefings and technical updates ahead of the 2017/18 financial statements preparation.

We provided training to the ARAC on pensions accounting and disclosures at its meeting on 19 January 2018.

We provide a range of workshops, along with network events for members and publications to support the Authority. As noted at the last ARAC meeting our next event is on 15 March 2018 in partnership with City of Wolverhampton Council being held at Wolverhampton Art Gallery.

Further details of the publications that may be of interest to the Combined Authority are set out in our Sector Update section of this report.

Audit Deliverables

2017/18 Deliverables	Planned Date	Status
Fee Letter Confirming audit fee for 2017/18.	April 2017	Complete
Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Audit, Risk and Assurance Committee setting out our proposed approach in order to give an opinion on the Combined Authority's 2017-18 financial statements.	January 2018	Complete
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	March 2018	This report refers
Audit Findings Report The Audit Findings Report will be reported to the June Audit Committee.	June 2018	Not yet due
Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion.	June 2018	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	August 2018	Not yet due

Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

	Work performed	Conclusions and recommendations
Internal audit	<p>We have completed a high level review of internal audit's overall arrangements. Our work has not identified any issues which we wish to bring to your attention.</p> <p>We have also reviewed internal audit's work on the Authority's key financial systems to date. Under audit standards we are prevented from directing the work of internal audit and therefore cannot gain direct assurance from it however we not identified any significant weaknesses from our review of their work which impacts upon our responsibilities.</p>	<p>Overall, we have concluded that the internal audit service provides an independent and satisfactory service to the Combined Authority and that internal audit work contributes to an effective internal control environment.</p> <p>Our review of internal audit work has not identified any weaknesses which impact on our audit approach.</p>
Entity level controls	<p>We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including:</p> <ul style="list-style-type: none"> • Communication and enforcement of integrity and ethical values • Commitment to competence • Participation by those charged with governance • Management's philosophy and operating style • Organisational structure • Assignment of authority and responsibility • Human resource policies and practices 	<p>Our work has identified no material weaknesses which are likely to adversely impact on the Combined Authority's financial statements.</p>
Review of information technology controls	<p>We performed a high level review of the general IT control environment, as part of the overall review of the internal controls system.</p> <p>IT (information technology) controls were observed to have been implemented in accordance with our documented understanding.</p>	<p>Our work has identified no material weaknesses which are likely to adversely impact on the Authority's financial statements. We are in the process of following up last year's IT recommendations and will report our findings in our Audit Findings Report.</p>
Walkthrough testing	<p>We have completed walkthrough tests of the Authority's controls operating in areas where we consider that there is a risk of material misstatement to the financial statements, which we consider to be in relation to completeness of payroll expenses and completeness of non-pay expenses.</p> <p>Our work has not identified any issues which we wish to bring to your attention. Internal controls have been implemented by the Combined Authority in accordance with our documented understanding.</p>	<p>Our work has not identified any weaknesses which impact on our audit approach.</p> <p>Note that we will conduct further walkthrough testing with regard to controls in place in respect of the valuation of the pension fund net liability, which we also identified to be a risk, when the actuary's report is received during our audit in May.</p>

Results of Interim Audit Work (continued)

	Work performed	Conclusions and recommendations
Journal entry controls	We have reviewed the Authority's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Authority's control environment or financial statements.	Our work has not identified any weaknesses which impact on our audit approach. We will obtain the full year's journal population as part of our year end audit and select 'unusual' entries for further review.
Early substantive testing	<p>Minimum Revenue Provision</p> <p>During the year the Combined Authority opted to change the way it calculates its MRP. The Authority reached its conclusions on amending the methodology based upon the statutory guidance currently in force. We have discussed these with management and provided audit challenge. On the basis of these discussions we are not minded to challenge the proposals. On 2 February 2018 MHCLG published updated guidance (see page 10 for further detail) which address changing methods for calculating MRP. These elements come into force from 1 April 2018. As the new regulations in this area come into force from 2018/19 we do not believe there are factors that would make us reconsider our view but we will maintain a watching brief and discuss with management if and when the need arises.</p> <p>Pensions Prepayments</p> <p>The Combined Authority has made advance payments during 2017/18 in respect of pension contributions for the three years to 2019/20. We have obtained supporting evidence for these prepayments as well as seeing the advice from the Authority's in-house legal team and are satisfied with the audit trail in place to support these payments. We will need to ensure on receipt of the draft financial statements that it has been accounted for in the financial statements correctly.</p> <p>Operating Expenses, Other Revenues (i.e. not Grant Revenues), Ticketing</p> <p>We have undertaken sample testing of transactions of the above areas up to month 9 (ie up to and including December 2017). We will top up this testing during our audit in May.</p> <p>Employee Remuneration</p> <p>We have undertaken substantive analytical review of payroll up to month 9 (ie up to and including December 2017). We will top up this testing during our audit in May.</p>	Our work has not identified any weaknesses which impact on our audit approach or findings which we need to bring to your attention.

Sector Update

Local government finances are at a tipping point. Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Public Sector Audit Appointments: Report on the results of auditors' work 2016/17

This is the third report on the results of auditors' work at local government bodies published by PSAA. It summarises the results of auditors' work at 497 principal bodies and 9,752 small bodies for 2016/17. The report covers the timeliness and quality of financial reporting, auditors' local value for money work, and the extent to which auditors used their statutory reporting powers.

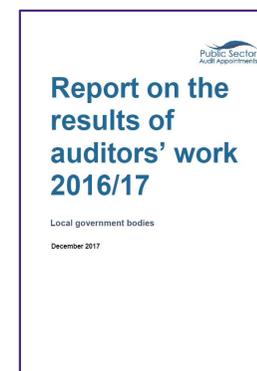

The timeliness and quality of financial reporting for 2016/17, as reported by auditors, remained broadly consistent with the previous year for both principal and small bodies. Compared with 2015/16, the number of principal bodies that received an unqualified audit opinion by 31 July showed an encouraging increase. 83 principal bodies (17 per cent) received an unqualified opinion on their accounts by the end of July compared with 49 (10 per cent) for 2015/16. These bodies appear to be well positioned to meet the earlier statutory accounts publication timetable that will apply for 2017/18 accounts.

Less positively, the proportion of principal bodies where the auditor was unable to issue the opinion by 30 September increased compared to 2015/16. Auditors at 92 per cent of councils (331 out of 357) were able to issue the opinion on the accounts by 30 September 2017, compared to 96 per cent for the previous year. This is a disappointing development in the context of the challenging new reporting timetable from 2017/18. All police bodies, 29 out of 30 fire and rescue authorities and all other local government bodies received their audit opinions by 30 September 2017.

The number of qualified conclusions on value for money arrangements has remained relatively constant at 7 per cent (30 councils, 2 fire and rescue authorities and 1 other local government body) compared to 8 per cent for 2015/16. The most common reasons for auditors issuing non-standard conclusions on the 2016/17 accounts were:

- the impact of issues identified in the reports of statutory inspectorates;
- corporate governance issues; and
- financial sustainability.

The latest results of auditors' work on the financial year to 31 March 2017 show a solid position for the majority of principal local government bodies. Generally, high standards of financial reporting are being maintained despite the financial and service delivery challenges currently facing local government.

Changes to the prudential framework of capital finance

The Ministry of Housing Communities and Local Government has updated the Local Authority Investments Guidance and the Minimum Revenue following its publication of consultation responses on 2 February 2018.

A total of 213 consultation responses were received by the MHCLG by the 22 December 2017 deadline from across local government. Following consideration of the responses the Government has:

- made some technical changes to the Investments Guidance and MRP Guidance
- amended proposals relating to useful economic lives of assets
- implemented the Investments Guidance for 2018-19, but allowed flexibility on when the additional disclosure first need to be presented to full Council
- deferred implementation of MRP Guidance to 2019-20 apart from the guidance “Changing methods for calculating MRP”, which applies from 1 April 2018.

Key changes are noted below.

Statutory Guidance on Local Authority Investments

Transparency and democratic accountability – the revised guidance retains the requirement for an Investment Strategy to be prepared at least annually and introduces some additional disclosures to improve transparency. However, as the changes to the CIPFA Prudential Code include a new requirement for local authorities to prepare a Capital Strategy, the revised guidance allows the matters required to be disclosed in the Investment Strategy to be disclosed in the Capital Strategy.

Principle of contribution – the consultation sought views on the introduction of a new principle requiring local authorities to disclose the contribution that non-core investments make towards core functions. Authorities’ core objectives include ‘service delivery objectives and/or placemaking role.’ This clarification has been made to recognise the fact that local authorities have a key role in facilitating the long term regeneration and economic growth of their local areas and that they may want to hold long term investments to facilitate this.

Introduction of a concept of proportionality – the Government is concerned that some local authorities may become overly dependent on commercial income as a source of revenue for delivering statutory services. The consultation sought views on requiring local authorities to disclose their dependence on commercial income to deliver statutory services and the amount of borrowing that has been committed to generate that income. A majority of respondents supported the introduction of a concept of proportionality, recognising the importance that local authorities make decisions based on an understanding of the overall risk that they face.

Borrowing in advance of need – by bringing non-financial investments (held primarily or partially to generate a profit) within the scope of the Investments Guidance, the consultation proposals made it clear that borrowing to fund acquisition of non-financial assets solely to generate a profit is not prudential. The Investment Guidance requires local authorities who have borrowed in advance of need solely to generate a profit to explain why they have chosen to disregard statutory guidance. It is also important to note that nothing in the Investment Guidance or the Prudential Code overrides statute, and local authorities will still need to consider whether any novel transaction is lawful by reference to legislation.

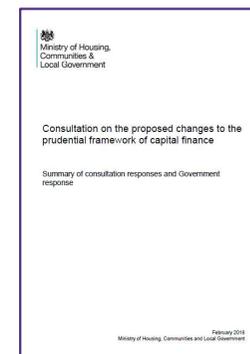

Minimum Revenue Provision Guidance

The consultation sought views on proposals to update the guidance relating to MRP to ensure local authorities are making prudent provision for the repayment of debt.

Meaning of a charge to the revenue account – the Government does not believe that crediting the revenue account is either prudent or within the spirit of the approach set out in the relevant Regulations. For this reason a charge to the account should not be a negative charge.

Impact of changing methods of calculating MRP – the Government does not expect any local authority to recalculate MRP charged in prior years due to the proposed changes in methodology.

Introduction of a maximum economic life of assets – the consultation sought views on setting a maximum useful economic life of 50 years for freehold land and 40 years for other assets. The MRP Guidance will set a maximum life of 50 years, but allow local authorities to exceed this where the related debt is PFI debt with a longer term than 50 years, or where a local authority has an opinion from an appropriately qualified person that an operational asset will deliver benefits for more than 50 years.

Changes to capital finance framework

Challenge question:

Has your Director of Finance briefed members on the impact of the changes to the prudential framework of capital finance?

CIPFA publications - The Prudential Code for Capital Finance in Local Authorities (2017 Edition)

CIPFA have published an updated 'Prudential Code for Capital Finance in Local Authorities'. Key developments include the introduction of more contextual reporting through the requirement to produce a capital strategy along with streamlined indicators.

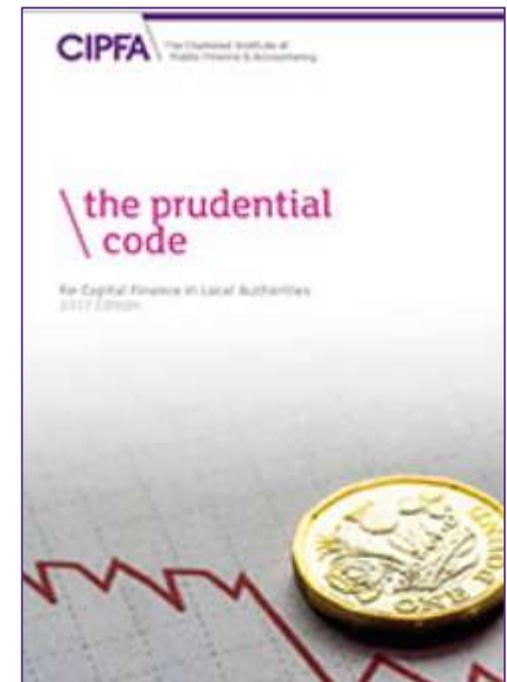

The framework established by the Prudential Code should support local strategic planning, local asset management planning and proper option appraisal. The objectives of the Prudential Code are to ensure, within this clear framework, that the capital investment plans of local authorities are affordable, prudent and sustainable.

Local authorities are required by regulation to have regard to the Prudential Code when carrying out their duties in England and Wales under Part 1 of the Local Government Act 2003, in Scotland under Part 7 of the Local Government in Scotland Act 2003, and in Northern Ireland under Part 1 of the Local Government Finance Act (Northern Ireland) 2011.

Since the Prudential Code was last updated in 2011, the landscape for public service delivery has changed significantly following the sustained period of reduced public spending and the developing localism agenda. It reflects the increasing diversity in the sector and new structures, whilst providing for streamlined reporting and indicators to encourage better understanding of local circumstances and improve decision making.

The introduction of a capital strategy allows individual local authorities to give greater weight to local circumstances and explain their approach to borrowing and investment.

The Code is available in hard copy and online.

CIPFA Publication

Challenge question:

Has your Director of Finance briefed members on the impact of the changes to the prudential code?

Overview of the General Data Protection Regulation (GDPR)

What is it?

The GDPR is the most significant development in data protection for 20 years. It introduces new rights for individuals and new obligations for public and private sector organisations.

What's next?

Many public sector organisations have already developed strategic plans to implement the GDPR, which require policy, operational, governance and technology changes to ensure compliance by 25th May 2018.

How will this affect you?

- ✓ All organisations that process personal data will be affected by the GDPR.
- ✓ The definition of 'personal data' has been clarified to include any data that can identify a living individual, either directly or indirectly. Various unique personal identifiers (including online cookies and IP addresses) will fall within the scope of personal data

What organisations need to do by May 2018

- ✓ Local government organisations need to be able to provide evidence of completion of their GDPR work to internal and external stakeholders, to internal audit and to regulators.
- ✓ New policies and procedures need to be fully signed off and operational.

Organisation Accountability

- Organisations must document their assurance procedures, and make them available to regulators
- Some organisations need to designate a Data Protection Officer, who has expert knowledge of data protection law

Notifications and Rights

- Organisations must notify significant data breaches to regulators within 72 hours
- Organisations must explain to individuals what their rights over their personal information are and how it is being processed and protected

Claims and Fines

- For the most serious data breaches, privacy regulators can impose penalties of up to €20 million on public sector organisations,
- Individuals and representative organisations can claim compensation for infringements of data protection law

Questions for your organisation:

- Can your organisation erase personal data effectively?
- Have you appointed a Data Protection Officer if required to have one?
- How will your organisation ensure citizens know how their data is being used and whether it's being shared with other organisations?

Through a local lens: SOLACE summit 2017

The Industrial Strategy matters to places but places also matter to the Industrial Strategy.

This was a strong message coming out of discussions at the recent SOLACE (Society of Local Authority Chief Executives) summit where we facilitated 100 local authority CEOs and senior leaders to consider how the Industrial Strategy could be brought to life at a local level.

For some time now we have engaged in an ongoing and inclusive dialogue with communities and business, local authority and third sector leaders from across the country, to share aspirations, ideas and insight focused on building a vibrant economy for the UK. These discussions have helped to form the basis of our Vibrant Economy 'Blueprint for the UK' and they will go on to inform our recommendations to Government around a place-based approach to the Industrial Strategy.

This year's summit provided us with an invaluable opportunity to take this dialogue further.

We focused on the integral role local government will have in delivering the Industrial Strategy. Delegates applied a local lens to the national growth agenda, encouraging them to consider what strategies and approaches were already working in their place; what they could be doing more of to support growth in their area, and how they could steer the Industrial Strategy agenda from a local level.

Using the appreciative inquiry technique, we discussed the following questions:

What role would leaders and local institutions be playing if they were delivering positive outcomes from the industrial strategy?

Looking ahead and considering our diverse local authority agendas, the industrial strategy and surrounding policy landscape what aspects might work well for everyone?

You can see and hear what delegates thought on our [website](#)

Supply Chain Insights tool helps support supply chain assurance in public services

Grant Thornton UK LLP has launched a new insights and benchmarking platform to support supply chain assurance and competitor intelligence in public services.

The Supply Chain Insights service is designed for use by financial directors and procurement professionals in the public sector, and market leaders in private sector suppliers to the public sector. It provides users with a detailed picture of contract value and spend with their supply chain members across the public sector. The analysis also provides a robust and granular view on the viability, sustainability, market position and coverage of their key suppliers and competitors.

The platform is built on aggregated data from 96 million invoices and covers £0.5 trillion of spending. The data is supplemented with financial standing data and indicators to give a fully rounded view. The service is supported by a dedicated team of analysts and is available to access directly as an on-line platform.

Phillip Woolley, Partner, Grant Thornton UK LLP, said:

"The fall-out from the recent failure of Carillion has highlighted the urgent need for robust and ongoing supply chain monitoring and assurance. Supply Chain Insights provides a clear picture of your suppliers' activities across the sector, allowing you to understand risks, capacity and track-record. We think it's an indispensable resource in today's supplier market."

The tool enables you to immediately:

- access over 96 million transactions that are continually added to
- segment invoices by:
 - organisation and category
 - service provider
 - date at a monthly level
- benchmark your spend against your peers
- identify:
 - organisations buying similar services
 - differences in pricing
 - the leading supplier
- see how important each buyer is to a supplier
- benchmark public sector organisations' spend on a consistent basis
- see how much public sector organisations spend with different suppliers

Supply Chain Insights forms part of the Grant Thornton Public Sector Insight Studio portfolio of analytics platforms.

Click on Supply Chain Insights for more information.
