Councillor Suzanne Hartwell	Sandwell Metropolitan Borough Council
Councillor Jasbir Jaspal	City of Wolverhampton Council
Paul Maubach	Sustainability & Transformation Partnership, NHS
Dr Will Taylor	Sustainability & Transformation Partnership, NHS

Item Title No.

44. Apologies for Absence

Apologies for absence were received from Councillor Kamran Caan, Andy Hardy, Sue Ibbotson and Pete Wilson.

45. Minutes - 19 October 2021

The minutes of the meeting held on 19 October 2021 were agreed as a correct record, subject to an amendment of Guy Daly's title from NHS to Universities (Coventry).

46. Chair's Remarks

The Chair thanked Professor Guy Daly for his work and input on health and social care on the Wellbeing Board, as the meeting would be his last due to leaving Coventry University at the end of March as had accepted a new position as the Provost of the British University in Egypt.

47. Revisiting the Health of the Region Report

The board considered a presentation from the Strategic Lead for Thrive & Health Inequalities, on the Health of the Region report first published in November 2020, providing an update on the data obtained and timeline in work uploading on to the data hub. There were three aspects of the report for the board to consider; The Health of the Region report, the dynamic data hub to run alongside the Health of the Region report and the governance structure.

Councillor Paulette Hamilton queried the overall governance structure in understanding the purpose of the roundtable and core groups, who the members would be, what would be discussed at these meetings and how that fed-back to the Wellbeing Board.

Resolved:

- (1) The Wellbeing Board receive further clarity on the roundtable and core groups in obtaining a greater understanding on the governance structure in how the two groups fed-back to the board.

48. Community Green Grants

The board received a presentation from the Community Green Grants Project Officer, who gave a presentation to update the Wellbeing Board on the Community Green Grants programme being led by the WMCA Environment Team. The grants aim would be to reduce green deprivation, tackle barriers in access to green spaces, connect communities with nature and enhance biodiversity, due to recognising that green spaces had made a positive impact to people's lives, particularly during the start of the pandemic and lockdowns.

Councillor Karen Grinsell enquired as to the ease of the application form for completion, whether the grants were limited to only constituted groups rather than un-constituted groups who may not have a bank account to apply, as well as whether the grants would be available and to connect in with primary care networks who may be located close to a green space to be developed. Ruth Burgess concluded that un-constituted groups linking in with constituted groups would be able to apply and the application process was relatively short, with a wealth of support available for completion of the form, as well as an upcoming webinar and numerous workshops planned.

Resolved:

- (1) The Community Green Grants and the timeframe for implementation be noted.
- (2) The synergies with work in wellbeing that could support the Community Green Grants, in terms of outcomes and process be noted.

49. WMCA Health in All Policies (HiAP) Approach

The board received a presentation from the Public Health Programme Manager, on building upon the WMCA's plan and approach to take forward the agreed wellbeing priorities across areas of responsibilities, including transport, housing, skills, energy and the environment to recognise the link between health and wealth, region productivity, economic growth and health and wellbeing in tandem. The report built upon the WMCA's mandate for health inequalities in the Health of the Region report and the direction agreed at the October Wellbeing Board meeting.

The board discussed the importance of transport infrastructure within the HiAP Approach in accessibility and safety, particularly for cycle routes, as well as recognising general cultural shifts and encouraging behavioural changes in adopting safer and healthier travel options to drive and deliver change between health and transport.

Resolved:

- (1) The proposed WMCA Health in All Policies (HiAP) model to act on health inequalities through its devolved responsibilities across the wider determinants of health be approved.
- (2) The support and guidance to refine the model and actions taken which would ensure the greatest impact be noted.

50. Wellbeing Programmes Update

a) Wellbeing Annual Performance and Forward Planning

The board received a verbal update from the Head of Wellbeing and Prevention, on the progress to date against the 2021/22 deliverables.

Resolved:

- (1) The progress against the 2021/22 High Level Deliverables to date be noted.
- (2) Those areas which the board wished to receive a more detailed report on progress and activity be noted.

b) Conveying a new Mental Health Commission Update

The board received a verbal update from the Mental Health Prevention Strategic Lead, on the progress in convening a new Mental Health Commission to support an aspirational strategy for a mentally and healthier region.

The focus of the Mental Health Commission's work would be aimed at the implications of children and young people, woman and girls, male mental health and suicidal rates, as well as racial differentials.

The Chair queried about the impact of mental health in sexual choice as not being noted as part of the Commission's work. The Mental Health Prevention Strategic Lead agreed and said although the Commission would choose its focus of work, sexual choice and orientation warranted further consideration due to a contributing factor in mental health issues.

Resolved:

(1) The updated plans in respect of convening a new Mental Health Commission, as set out in the paper be endorsed.

c) Individual Placement Support Thrive into Work

The board received a verbal update from the Strategy and Delivery Lead, on an update on the work that was taking place, future funding intentions of government and outline of the proposed governance arrangements of the Thrive into Work Individual Placement Support (IPS).

It was noted by the Board that the IPS positively impacted and changed lives of people.

Resolved:

(1) The progress of the IPS Programme be noted.

(2) The IPS programme funding position be noted.

(3) The proposed governance arrangements for the IPS Programme be noted.

51. Forward Plan - items for next meeting on 8 March

The Chair noted the forward plan had not been received in advance of the meeting.

The meeting ended at 12.00 pm.
